No new business at this time.

The board discussed junk vehicles around the township that are against zoning regulations. ZI Carr suggested issuing violations for all at one time.

ZI Carr reached out to R Henwood about getting updated maps for our zoning books.

Franz said the next topic to address is the letter being issued to the Greenwich Rd properties in LC. The Commission is drafting a letter for all property owners of this area, informing them of the current zoning and the township's comprehensive plan. The letter will be inviting all property owners to reach out and join the Zoning Commission at an upcoming meeting. As a group the Commission members read and discussed suggested changes throughout the letter.

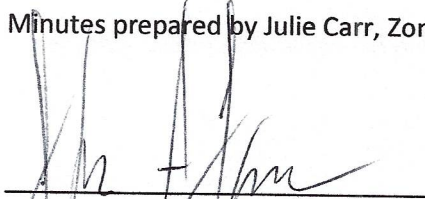

Thur asked about multi-unit dwellings and what is allowed in different districts in the township.
